Priya Nair

Data Scientist – NLP & Recommendations

Hyderabad, Telangana priya.nair@example.com +91 90000 00103 kaggle.com/priyanair-sample

PROFILE

Data scientist with 4 years taking ML models from notebook to production: recommendations, demand forecasting and LLM-based search. Python, PyTorch, Spark and MLOps.

SKILLS

Python · PyTorch · scikit-learn · LightGBM · NLP / LLMs · Recommender systems · Spark · SQL · Airflow · MLflow · AWS SageMaker · Experiment design

EXPERIENCE

Data Scientist II Jan 2024 – Present

StreamBox (video streaming) · Hyderabad

- Built a two-tower recommendation model for 9M viewers; watch time per user up 7.8% in an online test.
- Shipped semantic search with sentence embeddings and a vector index; zero-result searches down 41%.
- Fine-tuned an LLM to tag 300K titles with moods and themes; replaced a 6-person manual tagging team's backlog.

Data Scientist Aug 2022 – Dec 2023

FreshCart (grocery delivery) · Hyderabad

- Demand forecasting with LightGBM across 1,800 SKUs and 40 dark stores; wastage down 18%.
- Built churn prediction and uplift models used to target ₹6 Cr of retention offers.

Analyst (intern → full-time) Jun 2021 – Jul 2022

Insight Bridge Consulting · Chennai

- Automated client reporting with Python and Airflow; saved ~60 analyst hours a month.

PROJECTS & PUBLICATIONS

- "Mood-aware recommendations for Indian-language content" – workshop paper, 2025
- Open-source: Hindi–English code-mixed sentiment dataset (2.1K GitHub stars)

EDUCATION

M.Sc., Statistics – University of Hyderabad (sample) 2021
